[Click Here for FRS Facility Detail Report:](#)

Environmental Interest/Information System:
 RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

[Click this hyperlink](#) while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Hazardous Waste Summary:

Waste Code: F001
 Waste Description: The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichloroethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F002
 Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
 Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl

[Click Here for FRS Facility Detail Report:](#)

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

[Click this hyperlink](#) while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Hazardous Waste Summary:

Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: F002
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F004
Waste Description: The Following Spent Nonhalogenated Solvents: Cresols, Cresylic Acid, And Nitrobenzene; And The Still Bottoms From The Recovery Of These Solvents; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring. Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations, authorizations, etc) and their status.

[Click Here for FRS Facility Detail Report:](#)

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HCM Label:	Address Matching-House Number
Map Scale:	Not reported
Point of Reference:	Entrance Point of a Facility or Station
Highlights:	This property is currently owned by the City. The planned use is a small plaza and an entrance to an historic trail. This site had two RECs; one due to historical dry cleaning sites upgradient to the property and two historical automotive stations upgradient to the property. When redevelopment occurs, the small space will be a gateway to a historic trail and a pocket park in East Austin. This will leverage \$1m. Former Use: The site has been owned by the city since the blocks were platted in the early 1900's. It has never been developed.

Highlights:	This property is currently owned by the City. The planned use is a small plaza and an entrance to an historic trail. This site had two RECs; one due to historical dry cleaning sites upgradient to the property and two historical automotive stations upgradient to the property. When redevelopment occurs, the small space will be a gateway to a historic trail and a pocket park in East Austin. This will leverage \$1m. Former Use: The site has been owned by the city since the blocks were platted in the early 1900's. It has never been developed.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:

Waste Code: D001
 Waste Description: Ignitable Waste

Waste Code: F001
 Waste Description: The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichloroethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F002
 Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
 Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or

More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: U002
Waste Description: 2-Propanone (l) (Or) Acetone (l)

Waste Code: U080
Waste Description: Methane, Dichloro- (Or) Methylene Chloride

Waste Code: U154
Waste Description: Methanol (l) (Or) Methyl Alcohol (l)

Waste Code: U159
Waste Description: 2-Butanone (l,T) (Or) Methyl Ethyl Ketone (Mek) (l,T)

Waste Code: U161
Waste Description: 4-Methyl-2-Pentanone (l) (Or) Methyl Isobutyl Ketone (l) (Or) Pentanol, 4-Methyl-

Waste Code: U210
Waste Description: Ethene, Tetrachloro- (Or) Tetrachloroethylene

Waste Code: U220
Waste Description: Benzene, Methyl- (Or) Toluene

Waste Code: U239
Waste Description: Benzene, Dimethyl- (l,T) (Or) Xylene (l)

FINDS:

Registry ID: 110005101326

[Click Here for FRS Facility Detail Report:](#)

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations, authorizations, etc) and their status.

[Click this hyperlink](#) while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Waste Description: Trichlorethylene

Waste Code: F001
Waste Description: The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichlorethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F002
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Hazardous Waste Summary:

Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: F001
Waste Description: The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichloroethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F002
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates.

It also contains additional IDs (permits, registrations, authorizations, etc) and their status.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Longitude:	-97.732878
HCM Label:	Address Matching-House Number
Map Scale:	Not reported
Point of Reference:	Entrance Point of a Facility or Station
Highlights:	An historic single-family home had lead-based paint and asbestos containing materials removed and was renovated. The remainder of the property will be redeveloped as affordable housing for the elderly, with an estimated 12 apartments. There were initial concerns that an offsite leaking petroleum storage tank at a former gas station may have impacted the property. Although somewhat unlikely to have impacted the site due to the hill the site is located on, a monitor well was installed to make the determination whether the groundwater was impacted, and if so, whether the indoor air quality was affected. No groundwater was encountered at a depth of 30 feet. No evidence of impact was discovered. No other recognized environmental concerns existed at the site. Former Use: The subject property is currently a residential lot with a one-story house being the only structure on the site. The house is boarded up and has been vacant since 2010 after an electrical fire damaged the south end of the residence. A dirt crawl-space is located beneath the house. The house is believed to have been built around the year 1900. Access to the subject property is provided by East 9th Street. The subject property is located on the south side of East 9th Street where the street dead-ends into the easternmost IH-35 right-of-way. To the west of the subject property is a grassy embankment that slopes steeply down to the IH-35 access road. No other public thoroughfares adjoin the site. A short asphalt driveway connected to East 9th Street was observed on the north side of the property. The remainder of the property is covered in grasses/vegetation. According to the property owner, a second structure (an apartment) was formerly located on the south half of the property. This building was reportedly torn down in 2012.

Property Description:	The subject property is currently a residential lot with a one-story house being the only structure on the site. The house is boarded up and has been vacant since 2010 after an electrical fire damaged the south end of the residence. A dirt crawl-space is located beneath the house. The house is believed to have been built around the year 1900.

Access to the subject property is provided by East 9th Street. The subject property is located on the south side of East 9th Street where the street dead-ends into the easternmost IH-35 right-of-way. To the west of the subject property is a grassy embankment that slopes steeply down to the IH-35 access road. No other public thoroughfares adjoin the site. A short asphalt driveway connected to East 9th Street was observed on the north side of the property. The remainder of the property is covered in grasses/vegetation. According to the property owner, a second structure (an apartment) was formerly located on the south half of the property. This building was reportedly torn down in 2012.

Highlights:

An historic single-family home had lead-based paint and asbestos containing materials removed and was renovated. The remainder of the property will be redeveloped as affordable housing for the elderly, with an estimated 12 apartments. There were initial concerns that an offsite leaking petroleum storage tank at a former gas station may have impacted the property. Although somewhat unlikely to have impacted the site due to the hill the site is located on, a monitor well was installed to make the determination whether the groundwater was impacted, and if so, whether the indoor air quality was affected. No groundwater was encountered at a depth of 30 feet. No evidence of impact was discovered. No other recognized environmental concerns existed at the site. Former Use: The subject property is currently a residential lot with a one-story house being the only structure on the site. The house is boarded up and has been vacant since 2010 after an electrical fire damaged the south end of the residence. A dirt crawl-space is located beneath the house. Longitude: -97.732878
HCM Label: Address Matching-House Number
Map Scale: Not reported
Point of Reference: Entrance Point of a Facility or Station
Highlights: An historic single-family home had lead-based paint and asbestos containing materials removed and was renovated. The remainder of the property will be redeveloped as affordable housing for the elderly, with an estimated 12 apartments. There were initial concerns that an offsite leaking petroleum storage tank at a former gas station may have impacted the property. Although somewhat unlikely to have impacted the site due to the hill the site is located on, a monitor well was installed to make the determination whether the groundwater was impacted, and if so, whether the indoor air quality was affected. No groundwater was encountered at a depth of 30 feet. No evidence of impact was discovered. No other recognized environmental concerns existed at the site. Former Use: The subject property is currently a residential lot with a one-story house being the only structure on the site. The house is boarded up and has been vacant since 2010 after an electrical fire damaged the south end of the residence. A dirt crawl-space is located beneath the house. The house is believed to have been built around the year 1900. Access to the subject property is provided by East 9th Street. The subject property is located on the south side of East 9th Street where the street dead-ends into the easternmost IH-35 right-of-way. To the west of the subject property is a grassy embankment that slopes steeply down to the IH-35 access road. No other public thoroughfares adjoin the site. A short asphalt driveway connected to East 9th Street was observed on the north side of the property. The remainder of the property is covered in grasses/vegetation. According to the property owner, a second structure (an apartment) was formerly located on the south half of the property. This building was reportedly torn down in 2012.

 Entrance Point of a Facility or Station
 The Montopolis Recreation Center has served the East Austin community for more than four decades. Montopolis Recreation Center was originally owned by Dolores Catholic Church. The property consisted of two structures, a 14,400 sq. ft. recreation center and a community health care center, a swimming pool, parking lot and undeveloped land. In 1971, the City of Austin began operating the building as part of the Parks and Recreation Division (PARD) services. In 1973, PARD purchased the building and the surrounding land, with 2.55 acres of land dedicated for community use. After 40 years, the facility was in poor condition and no longer meeting the needs of a growing and vibrant community. Voters approved the updates in 2012, and broke ground on the project in 2018. With bond funding of just over \$15 million, the extensive redevelopment will provide improved recreational opportunities in East Austin. The Montopolis Recreation + Community Center will jointly replace two aging facilities and be co-operated by the Austin Parks and Recreation Department and Austin Public Health Department. The revitalized center features 33,000 square feet of new space, including a commercial kitchen, multisport gymnasium, fitness room, track, teen space, computer lab, conference rooms, and educational programming areas. The building's design seeks to support the initiatives of each partnering department by fostering mental and physical well-being through community recreation and the pursuit of healthy lives. Brownfields Assessment and Cleanup at Montopolis Recreation Center: The 2017 Phase I report indicated a need for more investigation of the historic off-site gas station. A groundwater monitoring well was installed, to determine if groundwater was impacted. No potential chemicals of concern were detected above regulatory levels. Following the groundwater assessment, the applicant requested an asbestos and lead-based paint survey of the Recreation Center. Contractors investigated the presence and extent of asbestos and lead based paint in the existing building in January 2018. The survey confirmed the presence of asbestos and lead-based paint. Abatement and appropriate handling were recommended during demolition and renovation of the property. ABRO completed asbestos and lead-based paint surveys to determine the extent of contamination present in the buildings. Asbestos abatement took place September-October 2019 and was completed 2 weeks ahead of schedule. More information about the renovation is on the City of Austin Montopolis Recreation and Community Center Project website Grant Documents & Important Dates: * ABCA and CRP were submitted to

health care center, a swimming pool, parking lot and undeveloped land. In 1971, the City of Austin began operating the building as part of the Parks and Recreation Division (PARC) services. In 1973, PARC purchased the building and the surrounding land, with 2.55 acres of land dedicated for community use. After 40 years, the facility was in poor condition and no longer meeting the needs of a growing and vibrant community. Voters approved the updates in 2012, and broke ground on the project in 2018. With bond funding of just over \$15 million, the extensive redevelopment will provide improved recreational opportunities in East Austin. The Montopolis Recreation + Community Center will jointly replace two aging facilities and be co-operated by the Austin Parks and Recreation Department and Austin Public Health Department. The revitalized center features 33,000 square feet of new space, including a commercial kitchen, multisport gymnasium, fitness room, track, teen space, computer lab, conference rooms, and educational programming areas. The building's design seeks to support the initiatives of each partnering department by fostering mental and physical well-being through community recreation and the pursuit of healthy lives. Brownfields Assessment and Cleanup at Montopolis Recreation Center: The 2017 Phase I report indicated a need for more investigation of the historic off-site gas station. A groundwater monitoring well was installed, to determine if groundwater was impacted. No potential chemicals of concern were detected above regulatory levels. Following the groundwater assessment, the applicant requested an asbestos and lead-based paint survey of the Recreation Center. Contractors investigated the presence and extent of asbestos and lead based paint in the existing building in January 2018. The survey confirmed the presence of asbestos and lead-based paint. Abatement and appropriate handling were recommended during demolition and renovation of the property. ABRO completed asbestos and lead-based paint surveys to determine the extent of contamination present in the buildings. Asbestos abatement took place September-October 2019 and was completed 2 weeks ahead of schedule. More information about the renovation is on the City of Austin Montopolis Recreation and Community Center Project website Grant Documents & Important Dates: * ABCA and CRP were submitted to EPA July 31, 2019 * The loan agreement (MOU) was signed August 1, 2019 * 30-day Public Notice was given in the Austin-American Statesman August 4 -September 2, 2019 * The QAPP was reviewed and approved September 10, 2019 * Notice was provided to DSHS September 3, 2019 * Abatement began September 20, 2019, and was completed October 04, 2019 * Final Report was submitted to ABRO from the QEP on January 3, 2020

for more than four decades. Montopolis Recreation Center was originally owned by Dolores Catholic Church. The property consisted of two structures, a 14,400 sq. ft. recreation center and a community health care center, a swimming pool, parking lot and undeveloped land. In 1971, the City of Austin began operating the building as part of the Parks and Recreation Division (PARD) services. In 1973, PARD purchased the building and the surrounding land, with 2.55 acres of land dedicated for community use. After 40 years, the facility was in poor condition and no longer meeting the needs of a growing and vibrant community. Voters approved the updates in 2012, and broke ground on the project in 2018. With bond funding of just over \$15 million, the extensive redevelopment will provide improved recreational opportunities in East Austin. The Montopolis Recreation + Community Center will jointly replace two aging facilities and be co-operated by the Austin Parks and Recreation Department and Austin Public Health Department. The revitalized center features 33,000 square feet of new space, including a commercial kitchen, multisport gymnasium, fitness room, track, teen space, computer lab, conference rooms, and educational programming areas. The building's design seeks to support the initiatives of each partnering department by fostering mental and physical well-being through community recreation and the pursuit of healthy lives. Brownfields Assessment and Cleanup at Montopolis Recreation Center: The 2017 Phase I report indicated a need for more investigation of the historic off-site gas station. A groundwater monitoring well was installed, to determine if groundwater was impacted. No potential chemicals of concern were detected above regulatory levels. Following the groundwater assessment, the applicant requested an asbestos and lead-based paint survey of the Recreation Center. Contractors investigated the presence and extent of asbestos and lead based paint in the existing building in January 2018. The survey confirmed the presence of asbestos and lead-based paint. Abatement and appropriate handling were recommended during demolition and renovation of the property. ABRO completed asbestos and lead-based paint surveys to determine the extent of contamination present in the buildings. Asbestos abatement took place September-October 2019 and was completed 2 weeks ahead of schedule. More information about the renovation is on the City of Austin Montopolis Recreation and Community Center Project website Grant Documents & Important Dates: * ABCA and CRP were submitted to EPA July 31, 2019 * The loan agreement (MOU) was signed August 1, 2019 * 30-day Public Notice was given in the Austin-American Statesman August 4 -September 2, 2019 * The QAPP was reviewed and approved September 10, 2019 * Notice was provided to DSHS September 3, 2019 * Abatement began September 20, 2019, and was completed October 04, 2019 * Final Report was submitted to ABRO from the QEP on January 3, 2020

ELIZABET NEY MUSEUM (Continued)

1026464115

Name: ELIZABET NEY MUSEUM
Address: 304 E. 44TH STREET
Recipient name: Austin, City of
Grant type: BCRLF
Region: 6
Property Number: Not reported
Parcel size: 1
Latitude: 30.306973
Longitude: -97.726252
HCM Label: Not reported
Map Scale: Not reported
Point of Reference: Not reported
Highlights: The historic home and studio of Elisabet Ney, a wildly iconoclastic German sculptor who moved to Austin in 1882, The Elisabet Ney Museum enthusiastically celebrates her art, her history and her legacy through exhibitions and events for the whole family. The museum enjoys numerous historic designations and is a cornerstone of the Hyde Park National Register Historic Neighborhood. The Restoration Project will include removal, restoration, and reinstallation of all the windows and doors as well as disturbance of some areas for new HVAC equipment.

Environmental Interest/Information System:

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company

Grant type: Assessment
Region: 6
Property Number: 291978
Parcel size: 0.93
Latitude: 30.213187
Longitude: -97.658037
HCM Label: Address Matching-Primary Name
Map Scale: Not reported
Point of Reference: Other Point
Highlights: This former Mobil service station and convenience store has been vacant for two years. The new owners are working to remove the underground storage tanks. The property is available for lease or purchase. In addition to the service station and convenience store, the other onsite building is a former Mexican Restaurant located on the east of the property. Only a short distance from the Austin Bergstrom International Airport ABIA, the property has unlimited reuse potential. Revitalization within the ABIA corridor has been sluggish due to economic factors, but it is expected to improve within the next few years. The property sits at the ABIA entrance. The property owner is planning to remove the tanks and market the property for purchase. Former Use: The property houses a closed service station with restaurant and convenient store facilities.

Recipient name:	Austin, City of
Grant type:	Assessment
Region:	6
Property Number:	291978
Parcel size:	0.93
Latitude:	30.213187
Longitude:	-97.658037
HCM Label:	Address Matching-Primary Name
Map Scale:	Not reported
Point of Reference:	Other Point
Highlights:	This former Mobil service station and convenience store has been vacant for two years. The new owners are working to remove the underground storage tanks. The property is available for lease or purchase. In addition to the service station and convenience store, the other onsite building is a former Mexican Restaurant located on the east of the property. Only a short distance from the Austin Bergstrom International Airport ABIA, the property has unlimited reuse potential. Revitalization within the ABIA corridor has been sluggish due to economic factors, but it is expected to improve within the next few years. The property sits at the ABIA entrance. The property owner is planning to remove the tanks and market the property for purchase. Former Use: The property houses a closed service station with restaurant and convenient store facilities.

Highlights:	The redevelopment of the 17 story tower is currently underway. When the entire complex is complete, it will have cost \$800m and create 2,800 new jobs. The redevelopment of the site will include demolishing over time most, if not all, of the existing buildings. Phase II ESA sampled multiple historical RECs, including previous dry cleaners, gas stations, jet fuel and diesel tanks, and areas of stressed vegetation. Contamination was not detected in soil or groundwater. Given the age of the buildings, asbestos and lead-based paint are likely present, but ABRO did not complete an asbestos/LBP survey. Due to the number and size of buildings, ACM/LBP abatement costs would be outside the grant budget.

CENTRAL HEALTH - BRACKENRIDGE CAMPUS (Continued)

1025442186

Unemployed Percent:	5.42
Name:	CENTRAL HEALTH - BRACKENRIDGE CAMPUS
Address:	601 E. 15TH STREET
Recipient name:	Austin, City of
Grant type:	Assessment
Region:	6
Property Number:	Not reported
Parcel size:	14.3
Latitude:	30.274544
Longitude:	-97.7336075
HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	The redevelopment of the 17 story tower is currently underway. When the entire complex is complete, it will have cost \$800m and create 2,800 new jobs. The redevelopment of the site will include demolishing over time most, if not all, of the existing buildings. Phase II ESA sampled multiple historical RECs, including previous dry cleaners, gas stations, jet fuel and diesel tanks, and areas of stressed vegetation. Contamination was not detected in soil or groundwater. Given the age of the buildings, asbestos and lead-based paint are likely present, but ABRO did not complete an asbestos/LBP survey. Due to the number and size of buildings, ACM/LBP abatement costs would be outside the grant budget.

Highlights:	The 0.46-acre subject property formerly operated as a used car dealership from 1987 through 2012 and has been vacant since closure in 2012. The subject property currently consists of a portion (approximately 1,785 square feet) of a 3,570-square-foot used car sales building surrounded by asphalt parking and drives. The used car sales building is generally separated into an office area and car wash garage. The subject property was agricultural land from at least 1940 until construction of a multi-tenant commercial building in the southeast portion of the subject property. The multi-tenant commercial building was demolished when the property was developed with the used car sales buildings in 1987. The Phase I and Limited Phase II had data gaps that may need to be investigated regarding groundwater and soils. Former Use: The property was most recently part of the First Texas Honda car dealership from 1987 until 2012 and has been vacant since that time. Two monitor wells were identified on

the Subject Property. Data gaps were identified during the Phase I ESA. The location of Fashion Dry Cleaners, which was identified as a historical dry-cleaner, was not confirmed during this Phase I ESA based on historical sources of information. A previous Phase I ESA reported that the location of Fashion Dry Cleaners was on the Subject Property; however, this was not confirmed. Additionally, omissions of data in the previous Phase I and II ESA reports led to the questioning of the usability of the data in these reports. It is recommended that the monitor wells on site be properly plugged and abandoned.

Project Transitions is a nonprofit dedicated to providing supportive living, housing, recuperative care and hospice in compassionate and caring environments for persons/families with HIV/AIDS. ABRO provided a cleanup sub-grant to assist with their affordable housing funding application through City of Austin Neighborhood Housing and Community Development/HUD. Project Transitions plans to move the current tenants to other facilities they manage, demolish the existing building, construct the new facility, and move the tenants back to the new and improved Roosevelt Gardens property within one year.

Highlights:	Project Transitions currently owns this property in North Austin that provides housing for low-income people living with HIV and AIDS. Project Transitions is a nonprofit dedicated to providing supportive living, housing, recuperative care and hospice in compassionate and caring environments for persons/families with HIV/AIDS. ABRO provided a cleanup sub-grant to assist with their affordable housing funding application through City of Austin Neighborhood Housing and Community Development/HUD. Project Transitions plans to move the current tenants to other facilities they manage, demolish the existing building, construct the new facility, and move the tenants back to the new and improved Roosevelt Gardens property within one year.

FINDS:

Registry ID: 110070884280

[Click Here for FRS Facility Detail Report:](#)

Environmental Interest/Information System:

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
